Summary

I am a Frontend Engineer with nearly 6 years of experience specializing in React, Next.js, and TypeScript. Skilled at translating complex business needs into elegant, high-performing web applications that elevate the user experience. Strong commitment to user-centric design and cross-functional collaboration ensures the delivery of exceptional, on-target digital solutions that advance business objectives.

Experience

PRAGMIDEA LTD - London **6/2022- Present**

Senior Front-end Developer (remote)

- Lead development of flight booking online service using **Next.js**, **Prisma**, **Tailwind CSS**, **Redis** and **PSQL**. Reached 1k+ booking tickets in one week.
- Developed **automated tests** using **Jest** and **Cypress.** Reduced manual testing time by 75% and increased **test coverage to 95%.**
- Refactored old React and React-router to Fully Updated **SSR** Next.js with new **cache** system.
- Refactored multiple projects from styled-component to **Tailwind CSS.** Elevated developer experience, and decreased bundle size by 20% to 40%.
- Optimized backend code by utilizing caching strategies and cutting-edge technologies. Reduced server response time **by 30%** and boasted overall PageSpeed scores by **25%**.
- Used analytics and performance measurement tools. Enhanced SEO and performance scores. Resulted in **20% increase** in website loading speed.
- 100% **Typescript** coverage, resulting in a more **type-safe** and maintainable code base that resulted in **30% fewer** overall runtime errors.

BITMAX **3/2020-6/2022**

Front End Developer

- Mastered a new framework within a month and successfully migrated the main application of Crypto-exchange from Next.js to Angular, resulting in a 40% increase in user engagement and a 25% increase in customer satisfaction.
- Identified and eliminated redundant code in five major components of the application; Lowered code complexity by 40% and boosted overall performance by 30%.
- Engineered a new exchange app in replacement of the legacy application that supports 50K+ users daily, slashed ticket resolution time by 50% and enhanced revenue by 20% via in-app exchanged currency.
- Collaborated on the app development project in a team of 5, defining milestones and managing sprints; achieved alpha release 2 months ahead of schedule and boosted team performance by 25%.

AVID Technology Development **2/2019-2/2020**

Front End Developer

http://www.lernito.com/

- Improved website performance by refactoring every aspect to be fully responsive, resulting in a Web Vitals score **100% better**.
- Enhanced the speed and efficiency of communication between front-end and back-end systems by implementing **GraphQL** technology.
- Evolved a responsive and interactive user interface with **React-Spring** animation library, reducing page load time by 20% and increasing user engagement by 40%.
- Conducted a thorough code review of five components, refactored the codebase, and increased code readability by 70%; subsequently, decreased the number of production issues related to the components by 80%.
